

### What is INTALL?

INTALL is a partnership among eight different European universities and two practice institutions in the field of adult education and lifelong learning. INTALL is run under the ERASMUS+ programme. It is building up a bridge between academic learning and the field of practice in adult and continuing education.

### How can you participate?

Master's and doctoral students as well as practitioners in the field of adult education and lifelong learning are invited to join a Winter School in Würzburg. The programme is structured in two weeks. In the first week students will learn about international and European policies in adult education and lifelong learning. In the second week practitioners will join the programme. Together students and practitioners will work on their employability skills and conduct their own international comparative study.

### INTALL-Winter School Dates:

4.-15.2.2019  
3.-14.2.2020  
1.-12.2.2021

This project is funded with support from the European Commission (project number: 2018-1-DE01-KA203-004272).

# International and Comparative Studies for Students and Practitioners in Adult Education and Lifelong Learning

## INTALL: 2018-2021

*Transnational Studies in adult education and lifelong learning*

FLYER FORMATING WILL FOLLOW

## What is INTALL developing?

1. A joint learning offer (including a Winter School) for students and practitioners;
2. A joint learning community for university and practice teachers in adult and continuing education to collect international teaching and learning settings
3. A portfolio method to strengthen the employability in adult education and lifelong learning
4. A digital learning offer for self-directed online learning

## WINTER SCHOOLS

The INTALL Winter-School starts each year with registration by the end of October. This is followed by on-campus preparation (by partner universities) and online- preparation. Each university student submits a transnational essay on a selected aspect of adult education and lifelong learning by mid-January. Practitioners are asked to prepare a good practice case. All participants meet in February for a two-week intensive programme at the Würzburg Winter School.

## TARGET GROUP

### Master and Doctoral Students in Adult and Continuing Education

Master and doctoral students, which study a subject, which is related to adult education and/or lifelong learning.

### Practitioners in Adult and Continuing Education

Practitioners who are working since minimum one year in the practice field of adult education, continuing education or lifelong learning. INTALL is focussing on people who are doing educational work on the micro-level (teaching, guiding), meso-level (management of adult education with tasks like needs analysis, educational programme development, preparation of teachers, etc.) and/or macro-level (advocacy of adult and continuing education on governmental level).

### Researchers in Adult and Continuing Education

University staff, which has a research focus on adult education and/or lifelong learning can also participate at the Winter School.

## FROM STUDIES TO PUBLICATION

INTALL is offering doctoral students the exclusive chance to pursue their comparative work commenced during the Winter School in an academic publication. By the end of the Winter School, groups will be formed to enable continued working on the precise comparisons identified. The publication will be supervised by international experts on the selected topics. They will be reviewed and published in a volume edited internationally.

## PROFESSIONAL NETWORK

Both before and after your transnational studies, INTALL offers you a professional network, that allows you to stay in contact with your study fellows, research their profile, and find the perfect partners for your transnational work.
